Paradox (2 DVD)
Mysterious images that show incidents 18 hours before they happen are transmitted from space. As a space scientist attempts to explain their source, detectives race against time to change the future.

R219⁹⁹

The Great Rift
Visible from space, the Great Rift runs for thousands of miles. It creates, connects and defines the wildest, most charismatic landscape in the world. From the majestic, snow-capped mountains of Kilimanjaro to the hustle and bustle of the Red Sea's coral reefs; the dry open savannahs of the Serengeti to the rain-soaked forests of the Mountains of the Moon.

R159⁹⁹

Whitechapel
The streets of London's East End are awash with blood. A murderer stalks the night, picking off vulnerable women and leaving them brutally butchered. But this is not the 19th Century; this is not Jack the Ripper - this is a copycat killer and once again the police remain clueless...

R159⁹⁹

Animalia
Where Animals Rule!
11 year olds Zoe and Alex are swept from their local library into Animalia, a world of talking animals. All is not right in the once peaceful kingdom, and their arrival coincides with unusual events undermining the very heart of Animalia - the Core. Zoe and Alex, together with their new friends, use their wits and imagination to help solve the mysteries and bring back harmony to the land.
